

DISCOVER WHY EVERYONE LOVES

If My Mom Were a Platypus: Mammal Babies and Their Mothers

Awarded the highly regarded “**NSTA RECOMMENDS**” by the National Science Teachers Association, the world’s largest organization promoting excellence in science teaching.

Recommended by the **Carnegie Institution for Science**: “Not only is the book as engaging visually as it is verbally, but the Activity Guide gives teachers the tools they need to present, explain and expand upon the book's content... a real asset for any teacher delving into the world of mammals.”

Featured annually at Family Science Days at the **American Association for the Advancement of Science (AAAS)**!

Recommended by the **California Academy of Sciences** in their Science Story Adventures series.

ForeWord Magazine: “...completely engrossing! Most readers are sure to be surprised by something they learn about these seemingly familiar animals... School-aged animal lovers will really enjoy the easily digestible and fun-for-sharing facts ... a wonderful gift book for expectant parents or families with children.”

Science Books & Films: ★★ (highest rating!)
The review journal of the American Association for the Advancement of Science (AAAS) gave the book two stars.
