

## ***Babies Nurse / Así se alimentan los bebés***

“This beautiful children’s book demonstrates the natural and instinctual connection between a mother and her offspring magnificently... Breastfeeding is the first step in cultivating a healthy mind, gut, and spirit for both mommy and her little ones. I am in awe of this book!”

—Kristin Struble, MD, FAAP; author of *How to Be a “Poop” Detective*

“Animal mothers of all shapes and sizes lavish their little ones with love and affection in a series of sweet poems celebrating nature, wildlife, and the special bond forged through nursing. Tigers, seals, dolphins, pandas, and other mammals softly take shape in peaceful watercolor portraits. Perfect for reading aloud to find out which mamas nurse their babies in the snow, underwater, on the beach, or upside down.”

—Foreword Reviews, 2018

“Page after page, the verbal and visual artistry conjures heartfelt vignettes to which youngsters respond with intense curiosity, fascination, and empathy. The back of the book contains a section that delivers detailed facts about each of the species, information to which youngsters are highly receptive due to the depth of their engagement by the prior pages. *Babies Nurse* both satisfies and whets children's appetite for knowledge, providing a springboard to conversations about parenting, biology, habitats, and the world at large.”

—Tillywig Parent's Favorite Products Award review, 2018

“Simple rhyming bilingual text and gentle quiet illustrations introduce the very youngest reader and listener to that most natural and loving of activities—mothers nursing their offspring. Mothers and babies of the fields, jungles, air, and water are all portrayed, demonstrating that all mammal babies are nourished in the same way.”

—Wendy Watson, author and/or illustrator of over 60 books for children, Phoenix, AZ

“This book creates a safe space to explore normal infant feeding and bonding—and will entertain the tiniest toddler and older children who will love all of the interesting animal facts at the end.”

—Julia Hall JD, Founder and Executive Director of Babymoon Inn Birth Center
